Implant Placement on PATIENTS

# 7 Days Hands on Live Surgical Course

95 Credit Hours

305-271-9202 - [www.LiveImplants.com](http://www.LiveImplants.com)

## **7 Day Intensive Surgical Training Working on Screened Patients**

Since 2009 Dr. Mongalo has trained over 600 licensed dentists from all over the world utilizing the LIVE patient approach. This new innovative teaching methodology has been received with great enthusiasm in the dental community.

Fifteen consecutive courses have sold out and most participants return for additional courses. We are proud to have trained Beginners and graduated them into Advanced. Courses are taught 100% in English.

English is the 1st language for all faculty members and the entire supporting staff speaks English fluently.

The courses are held every three months in the beautiful touristy city of Puerto Vallarta, Mexico. The Institute lays on a five acre ranch and it is conditioned with six fully digital operatories, conference room, swimming pool and spa. Puerto Vallarta is well known as the most safe and attractive city in Mexico. Through a liaison with the Mexican health department and Guadalajara Dental University we are able to screen patients that will fulfill the surgical needs of the participants.

Course attendees will be staying at the luxury 5 star Casa Magna Marriott Resort & Spa. You can bring the family and stay a few extra days and enjoy activities like whale watching, swimming with dolphins and golfing in this very beautiful and tranquil resort and city.

## **Hanna Mansoor D.D.S. Gilbert, Arizona.**

"He is down to earth and very knowledgeable. I enjoyed Dr. Mongalo's course on Implants. Learned how to place Implants in compromised areas and observed sinus lifts. Learned how to do better flaps and suturing techniques. I will definitely use this experience in my office. I feel I gained more experience and confidence in implant placement and doing it safely."

## **Niraj Patel D.D.S. Cary, Illinois.**

"Mongalo's Implant Course is the best course I have ever taken. It opened up my eyes to a whole new world of implant dentistry. My practice will evolve because of this experience."

## **Dr. Amir Esfandiari – Irvine California**

"Dr. Mongalo has done a fantastic job creating a simple and practical approach to implant dentistry. When you come out of this course you will have all the confidence to start placing your implants and face the challenges other dentist can only dream of. I highly recommend this course, if you want to start placing your own implants or if you want to advance your skills."

## **Dr. Tam T. Le – Phoenix Arizona**

"I really enjoyed Dr. Mongalo's Live Implant Course. I was a beginner and I got to place implants, bone grafts on live patients, treatment planning and diagnosing case scenarios with friendly and experienced instructors. The staff at the facility were very helpful and hospitable. I was surprised (and quite pleased) to see Dr. Mongalo very down to earth, straight forward, personable and quite fair. He is extremely smart, talented and funny making the whole experience very enjoyable and worthwhile. I was ready and confident to place implants on my patients when I got back to my practice! Thumbs up! I plan to come back next year for more advanced experience! P.S. The lunches provided were mouthwatering and very authentic Mexican foods! Guaranteed second servings! "
