3 Day Live Intensive Surgical Training

Mongalo Dental Institute announces for the first time in the United States "Hands on Live Surgery with Patients". Dr. Mongalo and his leading team of oral and maxillofacial surgeons will be introducing a four day, two month long program.

These courses will offered to US and Canadian dentists.

This amazing seminar is taking place at Georgia Health Sciences University (Oral and Maxillofacial Surgery Department). This \$112 million dollar dental building has the the finest state of the art operatories and equipment dental schools have yet to see.

This course will be enable participants to:

- Participate in a course in the United States where all US and Canadian dentists will be allowed to work on preselected patients.
- Apply basic implant principles (treatment planning, surgical and restorative).
- Identify anatomical landmarks and understand surgical safety zones.
- Review CT-scan and 3D head and neck anatomy.
- Participate in a workshop where all patient treatment plans will be reviewed: CT-scan, 3D images and virtual planning performed.
- Participate in a workshop where: fabrication of model based surgical guides and utilization of Implant positioning devices will be performed.

FACULTY

Dr. Virgil Mongalo • Course Chairman

Maintains private practice in South Florida since 1991 focusing his efforts on computer guided surgeries and restorations of dental implants. He is actively lecturing in North America, Canada, Nicaragua, Venezuela, Mexico, Colombia and Brazil. Past teaching appointments include associate Professor of implant prosthodontics at the University of Florida, co-chairman at Robert Morgan Institute two year implant training program, chairman of Department of Implantology at Nicaraguan Catholic University. Present Director of Live Implant training courses and professor of implant dentistry at North Atlantic Research Clinic.

Dr. Mark Stevens • Oral and Maxillofacial Surgeon • Course Director

Chairman of Georgia Health Sciences University, Department of Oral and Maxillofacial Surgery. He was the past associate professor of surgery and director of Orthognathic Surgery and TMJ Center at University of Miami School of Medicine. Past associate professor of surgery and director of Orthognathic Surgery and TMJ Center at University of Miami School of Medicine. His special interests are correction of dental facial deformities and cosmetic practice in all phases of Oral Surgery. Author of multiple surgical publications.

Dr Stevens gives annual review course on implants for OMF Surgeons in Dubai, has co-authored an Atlas on bone harvesting, including stem cell techniques with Dr. Robert Marx and published articles on bone ring grafting and immediate implants.

Dr. Solon Kao • Oral and Maxillofacial Surgeon Course Director

Solon Kao, D.D.S is a Diplomate of the American Board of Oral and Maxillofacial Surgery and also a Diplomate of the American Dental Society of Anesthesiology. He is currently an Assistant Professor in the Oral and Maxillofacial Surgery Department at the GHSU College of Dental Medicine. Dr Kao lectures extensively at the AAMOS meetings and published articles on various Autologous Grafting Methods for Dental Implant Reconstruction.

Dr. Henry "Butch" W. Ferguson Oral and Maxillofacial Surgeon • Faculty

After retiring from active duty at the rank of Colonel, Dr. Ferguson joined the faculty in the department of Oral and Maxillofacial Surgery at the Georgia Health Sciences University, College of Dental Medicine as an Associate Professor. He currently holds the positions of Vice Chair and Director of Post Graduate training for OMFS. He received his dental degree from the University of Pittsburgh School of Dental Medicine, and his specialty training in OMFS at the Eisenhower Army Medical Center, Fort Gordon, Georgia.
